

REUSE & RECYCLING DIRECTORY 2011/2012

STOP, RETHINK, RECYCLE

I ♥ BNE
That's why I rethink my rubbish

Dedicated to a better Brisbane

REUSE & RECYCLING DIRECTORY

Welcome to the *Reuse and Recycling Directory*.

This guide will assist you in finding companies that divert resources from landfill and transform them into reusable and recyclable materials.

This directory is listed in alphabetical order by material type. Under each listing there are various options for reuse or recycling, which will help you find your unwanted resource a new home faster.

If you have an unwanted item that still can be used, such as household furniture, you could consider donating it to an organisation that can give it a second life, such as a charity shop, refurbisher or repairer. You could also consider selling it, giving it away to a friend, or taking it to one of Council's transfer stations where it can be donated to Council's Tip Shop.

Reuse:

This process requires no energy as it uses the product in its current form.

Recycle:

This process uses energy to convert the material into another material for use.

Reuse is better than recycling; could your unwanted goods be donated, swapped, sold or advertised electronically on the internet? Then check out the "Online Notice Boards".

ONLINE NOTICE BOARDS

List or find unwanted material for free on these online notice boards

FURNITURE AND CLOTHING

See also see OFFICE FURNITURE

If you have unwanted household furniture consider donating it to an organisation that will give it a second life, such as a charity shop, refurbisher or repairer. You could also take it to one of Council's transfer stations and ask the staff to direct you to the Tip Shop collection point, where it will be resold for charity.

Clean and useable items of clothing can be dropped into charity bins available near shopping centres around Brisbane. Call stores to arrange furniture pick up.

SMOKE ALARMS

It is currently considered safe to dispose of up to 10 smoke detectors in your domestic waste bin, however for best practice in waste minimisation; these should be recycled by the manufacturer of the product. To recycle the appliance, remove the batteries (see battery recycling section) and return the unit directly to the manufacturer. You will find the name of the manufacturer on the back of the unit.

TIMBER (REUSEABLE AND OFF-CUTS)
